

Customer invitation

Porta Westfalica, 20.04.2008

Invitation to the ACHEMA 2009 (11-15 May) New highlights at JACOB ROHRSYSTEME

Dear Mr/Ms,

Please visit us at the ACHEMA!

We look forward to your visit so we can meet and discuss technical matters in a friendly environment.

With our product innovations and the quality advantages of our products and services, we are pleased to show you why so many customers place their trust in us.

You have made us the leader among pipework system providers in Europe.

- Our **innovative powder-coating** will set a new **standard of quality**. At the ACHEMA, we will present for the first time our new quality standard in outer and inner pipe coating with a new powder development. The added value package which we offer our customers will convince you;
- We will also show you ORIGINAL JACOB using the example of superior know-how with our **distributor range** and with our latest **bestseller innovation**, the **JACOB earthing bridge**® for uncomplicated and safe electrostatic potential equalisation of your pipework system.
- Find out information about our practical assistance, such as the **3-D-Service** for JACOB customers.

We consolidate our successful position on the market by implementing a customer-oriented advantage policy. We would be pleased to have the chance to convince you of this.

You can find us at the ACHEMA, Frankfurt a. M., in hall 6.0, stand H22-H28.

We would be happy to send you a personal invitation, if you return this page via fax with the order coupon attached below or call our service hotline: 0571 9558-0.

We are already looking forward to your visit.

Yours sincerely from Porta Westfalica

JACOB ROHRSYSTEME

Dr. Ralf Jacob
Managing Director

Ralf W. Borcharding
