

WE'VE GOT IT COVERED!

New, premium quality surfaces for JACOB pull rings

Variety of pull rings

- ✓ Particle-blasted stainless steel
- ✓ Galvanized steel

New!

- ✓ Electrolytically polished stainless steel
- ✓ Shot-blasted stainless steel
- ✓ Powder-coated steel

We offer a variety of surfaces and special finishes for our pull rings. Choose from our catalogue standards: Particle-blasted stainless steel and galvanized steel.

On request, stainless steel pull rings are now also available in electrolytically polished and shot-blasted versions. Powder-coated pull rings can be coated in a colour of your choice – select from over 3000 RAL colours.

We'd be happy to provide you with a quotation:
